

## **INDIGENOUS Design**

For over a decade Indigenous has been a pioneer in the fair trade and organic contemporary apparel market. We honor the traditional hand knitting culture of artisans from around the world with ambitious fair trade practices. Indigenous minimizes the impact to our environment through the development and use of the finest organic and natural fiber blends, yarns and dyes. Organic Cotton, Silk, Merino, Alpaca, and Tencel are our elements. Gentle to the touch, luxurious, and stylish to wear, our clothes are truly in harmony with nature. Our path is chosen, we make clothes out of fibers that protect the environment and the communities where they are made. With your support, we continue down this path to honor both the people and the planet with a commitment that has never been stronger.

### **The INDIGENOUS and B Corporation Partnership:**

For the remainder of 2008, Indigenous would like to offer all Healthy Home friends a 35% discount on all products on our website! Use this code – **IDBC2** when you check out and receive 35% off. This offer can also be added to items already on sale for an even deeper discount!

From everyone here at Indigenous~ Happy shopping!!  
One weave, we are all knit together.
