

## **Untours**

Untours is about connecting people of different cultures and economic statuses through travel. We offer vacation rental packages in Europe and North America. We take care of all the travel arrangements and provide you with extensive information and on-site support, but let you see and experience Europe your way, doing what you want, when you want. Depending on the location, you could find yourself staying in a city flat in Paris, a farm house in Tuscany, or a chalet in Switzerland. To view properties and availability visit [www.untours.com](http://www.untours.com) or call **888.868.6871**.

### **What is the change we seek?**

Untours gives nearly all of its profits to the Untours Foundation. The foundation provides low interest loans to struggling entrepreneurs both in the U.S. and abroad. Loans are issued to individuals and organizations in order to create jobs, build low-income housing, and support Fair Trade products all through the most environmentally friendly means possible. Untours, the company, is operated as a triple-bottom-line business.

### **Why we became a Founding B Corporation?**

We feel strongly that businesses like ours need to support each other and become a model for other businesses to follow. We are excited about the prospect of creating a well defined segment of the world economy dedicated to providing benefits to society at large. We have great confidence in the B Lab team and their ability to make real progress toward this end.

### **What is the Untours offer?**

We are offering a 5% reduction to B Corporations and their employees. This offer cannot be combined with any other discount and is valid for departures through December, 2009. This offer is valid for new sales only and may not be applied towards the deposit. Be sure to mention the B Corp discount when you book in order to get the reduction.
